

# Transplant Program Facts

As of April 1, 2009

## Number of Kidney Transplants Performed:

Year:	'00	'01	'02	'03	'04	'05	'06	'07	'08
DD:	141	50	140	143	136	122	141	145	141
LD:	31	34	32	45	67	73	68	34	48

Number of DD transplants 1/09 to date: 48 - Number of LD transplants 1/09 to date: 11

Number of transplants to date: 3,988

1-Yr CAD patient survival rate: 97.2% - National Average: 96.4%

3-Yr CAD patient survival rate: 94.3% - National Average: 91%

1-Yr CAD graft survival rate: 95% - National Average: 93%

3-Yr CAD graft survival rate: 91% - National Average: 83.3%

## Number of Pancreas + Kidney/Pancreas Transplants Performed:

Year:	'02	'03	'04	'05	'06	'07	'08
SPK:*	22	19	23	21	23	17	25
PAK:*	4	0	2	0	2	0	0
PTA:*	3	0	0	2	0	1	2

Number of transplants 1/09 to date: SPK: 3, PAK: 0, PTA:

Number of transplants to date: 177

1-Yr SPK graft survival rate: 96% - National Average: 93%

\*SPK - combined transplants, PAK - pancreas after kidney, PTA - pancreas alone

## Number of Liver Transplants Performed:

Year:	'00	'01	'02	'03	'04	'05	'06	'07	'08
	53	86	73	94	82	74	73	97	104

Number of transplants 1/09 to date: 21

Number of transplants to date: 891

1-Yr patient survival rate: 90% - National Average: 88%

3-Yr patient survival rate: 81% - National Average: 78%

1-Yr graft survival rate: 86.8% - National Average: 83.4%

3-Yr graft survival rate: 76% - National Average: 73%

## Number of Heart Transplants Performed:

Year:	'00	'01	'02	'03	'04	'05	'06	'07	'08
	25	64	42	55	54	60	59	50	45

Number of transplants 1/09 to date: 10

Number of transplants to date: 907

1-Yr patient survival rate: 84% - National Average: 88%

3-Yr patient survival rate: 89.5% - National Average: 81%

1-Yr graft survival rate: 84% - National Average: 88%

3-Yr graft survival rate: 89% - National Average: 80%

## Number of Lung Transplants Performed:

Year:	'02	'03	'04	'05	'06	'07	'08
	8	4	11	17	36	41	37

Number of transplants 1/09 to date: 9

Number of transplants to date: 164

1-Yr patient survival rate: 92% - National Average: 83%

3-Yr patient survival rate: 79% - National Average: 67%

1-Yr graft survival rate: 92.4% - National Average: 81.4%

3-Yr graft survival rate: 80% - National Average: 65%

National average source: OPTN/SRTR  
as of January, 2009

\*SPK - combined transplants  
PAK - pancreas after kidney  
PTA - pancreas alone
